*You Can Produce a Crop Four Weeks Earlier By Using Our
Field Grown Frost Proof Plants*

Our Plants are Used and Endorsed by Thousands of Growers Throughout the United States

Fallis, Okla., April 28, 1936

Jefferson Farms:

A friend of ours was telling us about your sturdy field grown plants. How nice they were. They gave us your prices and special offer of tomato plants. Please send 1,000 tomato plants.

Yours truly,

Mrs. M. L. S. _____

Virginia, Minn., May 22, 1936.

Dear Sirs:

You can now express me my order of 500 cabbage and 1,000 onion plants I ordered and had you hold for me. I received very good results from your plants last year and have every confidence that this years results will be as good.

Yours very truly,

Frank J. S. _____

Scarbro, W. Va., April 27, 1936.

Dear Sirs:

Please send me five hundred cabbage plants. I saw Mrs. Stavers plants and they are real nice ones. She ordered from you.

Sincerely yours,

Mrs. Ella C. _____

Inman, Kan., April 22nd.

I received my cabbage plants and am well pleased with them, and everybody wants some, so I have no trouble to sell them.

Mrs. R. T. M. _____

Kingston Springs, Tenn., Apr. 28th.

Dear Sirs:

I am proud to say that I received my plants all O. K. and I am well pleased with them. I will take great pleasure in recommending your house to my friends and others.

Yours Sincerely,

J. J. A. _____

Cadiz, Ohio, April 18th.

Received shipment of cabbage plants this P. M. The plants are very grand and entirely satisfactory.

Yours Truly,

J. C. G. _____

Passapatanzy, Va., May 4th.

Knoxville, Tenn., April 30th.

Jefferson Farms:

Please send five hundred tomato plants. I want two kinds. The plants I received last Spring were fine. Many thanks.

Mrs. A. F. F. _____

"The Proof of the Pudding Is in the Eating"

Modesty impels us to "let others tell the story." The following testimonials are typical of many others sent us by mail, including such statements as "Your Plants are growing more popular every day with the Farmers."

Read What Some of Our Users Say:

Dear Sirs:

The plants I ordered from you this Spring made the finest cabbage in my parish. The plants arrived in good shape, and I expect to order again next year.

Harbor Grace, New Foundland.

Harry S_____.

Bethel, Ohio, March 31st, 1936

I am sending for an order for some plants as your plants have been so wonderfully recommended to me. I do not want them to come before the second week in April.

Yours Truly,
C. O. A_____.

Sparta, Ill., April 23, 1936.

The Jefferson Farms:

Please send me 500 tomato plants postpaid, what you think are best for an all Summer farm garden. I have been getting my tomato plants from you for a long time and they are nice.

Miss Anna E. S_____.

Huntington, Mass., March 24, 1936.

Dear Sir:

Ship me at once 3,000 plants. I had three or four lots from you last year and they were fine. I will send you another order April 10.

F. M. F_____.

Cisne, Ill., April 25th.

I received the plants in good shape today. Thank you for prompt shipment.
Bundy S_____.

The Jefferson Farms **Albany, Georgia**

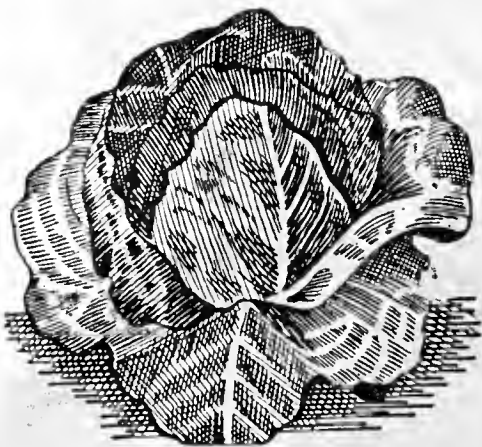

GENUINE FIELD-GROWN FROM

CHARLESTON WAKEFIELD

This cabbage is a selection from the Early Jersey. It was originated by one of our oldest growers, and is the best all-around cabbage in existence; it is only about ten days later than the Early Jersey and we recommend it above all others.

EARLY JERSEY WAKEFIELD

Many market gardeners consider this the best cabbage in cultivation. Its merits are many, among which are large heads for an early variety, small outside foliage, and uniformity of crop. The heads are medium size, cone shaped, and are white, solid and tender.

EARLY FLAT DUTCH

This variety needs no recommendation, as it is one of the oldest in cultivation. Exceedingly valuable for its quality, and for its ability to resist heat. Heads very solid, round, flattened on top, tender and fine grained.

COPENHAGEN MARKET

The heads of this variety are exceptionally large for an early variety. Growth is vigorous with solid compact heads with few outer leaves. About as early as Early Jersey Wakefield.

HENDERSON SUCCESSION

The earliest of the flat head varieties. A sure header, and a very hardy grower, both in cold and hot weather. This variety is grown extensively in the South and gives universal satisfaction. We strongly recommend this variety.

GOLDEN ACRE

This early round-headed cabbage is a selection from Copenhagen Market, and matures about a week earlier than that variety. The heads are round as a ball, very firm, and are of good quality. Owing to its earliness, uniformity, and attractive appearance, this cabbage is proving very profitable to market gardeners.

ALL ORDERS ARE SHIPPED

ST-PROOF CABBAGE PLANTS

An Additional Profit

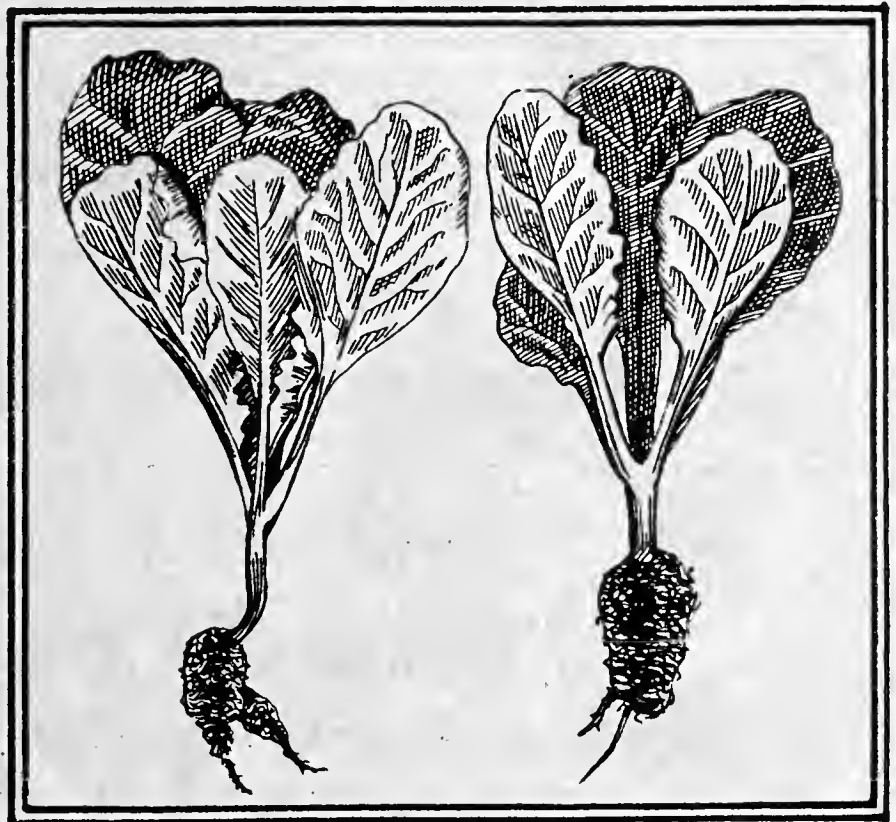

of **\$150.00** *an acre*

AN ACRE OF CABBAGE

Well taken care of in an ordinary season will produce 15,000 heads, or thirty thousand pounds of good, wholesome food for man or beast. If you can realize the small sum of one cent per head you would realize

\$150.00
an acre

And at one cent per pound would sell for \$300. At the time this is written cabbage is selling for three and one-half cents per pound here wholesale. Ask your local grocer the market quotations on cabbage. You can follow this same acre of land with cotton, corn or potatoes and make a good crop without additional fertilizer.

D SAME DAY RECEIVED

Open Field Grown Tomato Plants

Our open field grown tomato plants are strong and hardy, short jointed and well rooted. Not to be compared with soft tender plants from greenhouses. Will produce a crop of Tomatoes much earlier than home grown plants. Our plants are grown from Certified Seed, and the plants Government Inspected. All plants packed with tops ventilated with damp moss to roots. Shipment any time after April 10th.

EARLIANA

Our Earliana is the earliest tomato grown, and very popular for home gardens and early market. The fruit is medium size, smooth, globe shaped, bright scarlet and very prolific.

BONNY BEST

Standard second early variety, valuable for market gardeners, shippers and canners. Fruits medium size apple shaped, smooth, bright scarlet in color, of excellent quality.

MARGLOBE

Recently introduced by United States Department of Agriculture. This main crop variety has come into wide use for truckers and shippers. Plants vigorous, with heavy foliage, resistant to wilt and nail-head rust. Fruits medium large, globe shape, smooth, solid, with thick walls and cross section, of fine quality.

GREATER BALTIMORE

Our improved strain is particularly desirable, as it is earlier and deeper than most stocks. Vine large and medium heavy. Fruits large, smooth, deep red, solid and attractive. Used extensively for canning and by market gardeners.

NEW STONE

A medium late variety, deservedly popular with canners and market gardeners. Our strain ripens evenly, and is uniform. Vines large, dense, very productive. Fruits large, flatten but deep, smooth, attractive scarlet red, of fine flavor.

PRITCHARD (SCARLET TOPPER)

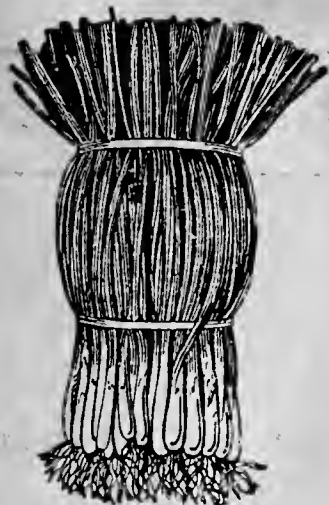

A new product of the U. S. Dept. of Agriculture, developed by the late Dr. Pritchard. The fruit is deep scarlet color, globe shaped, solid and smooth. As it is wilt-resistant, it is finding favor in sections subject to wilt, and its shipping qualities are making it popular in the South.

OUR PRICES ON TOMATO PLANTS

Frost-Proof ONION PLANTS

CULTURE

Set out Jefferson's Frostproof Onion Plants just as soon as you can get them into the ground—the same as Jefferson's Frostproof Cabbage Plants. This means that you will get earlier crops of fully developed and larger onions—the very first ones for your own table use or the earliest onions that bring the top prices at market. Set the plants in rows twenty inches apart, and 3 to 5 inches in the row. The land should be a light loam and highly fertilized. Cultivate shallow.

WHITE BERMUDA

White Bermuda Onions are noted for their earliness, heavy yield and mildness of flavor. We plant our seed in October, and the plants take on root growth during the winter months, and will grow very fast when put out in the Spring and we strongly recommend them for the more Northern Sections of the South where it gets too cold for this variety to live during the winter.

CRYSTAL WHITE WAX

This Onion is so well known it needs very little description in this price list. It is the most attractive onion grown, snow white in appearance, which makes it sell well on any market. Every garden should have a few rows of this variety.

SWEET SPANISH (VALENCIA)

This variety is the large Spanish type, globe shape, bright golden yellow. The flavor is very mild, and the shape very uniform. Very high yields may be expected from this variety.

PRIZETAKER

This grows a very large bulb weighing in some cases as much as two pounds. Its color is a light straw color, and grows to a uniform shape, which is almost a perfect globe.

PORTO RICO YAM SWEET POTATO PLANTS

This variety is by far the best and most profitable sweet potato grown. A very heavy yielder, requiring less cultivation due to rapid growth and rapid foliage which shades the ground. We grow no other variety so you can rest assured that you get a pure strain from our farm.

Orders must be placed far in advance as we only bed sufficient seed to insure the number of plants for which we have orders. Shipment after April 1st. Prices Postpaid: 500 for \$1.25; 1,000 for \$2.25. By Express or Parcel Post Collect: 1,000 for \$1.75; 5,000 for \$7.50.

"The Jefferson Farms"

Needs no introduction to our many friends in this, and in Foreign Lands. "Our Folks" have learned through experience that the name "Jefferson" denotes Quality and Purity in plants and that plants purchased under the Jefferson Farms label are always dependable—being better because they are grown better.

To our New Customers, we want to say that "The Jefferson Farms" was founded over a quarter century ago upon the solid rock of QUALITY and PURITY. Gardeners themselves issued the call for BETTER plants which they could set with confidence and harvest with profit.

WE ARE GROWERS—We operate three farms and grow our own plants. You are buying direct from a fellow farmer when you buy from us.

If plants cannot be set out the same day received uncrate immediately, dip roots in water and heel out into the ground, spreading bunches a little. Never leave in crate or package.

NOTICE—The plants when received will be somewhat wilted and have a stunted appearance, which may be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce results superior to common or home grown plants.

OUR GUARANTEE

All plants are guaranteed to reach you in good condition. Should there be any damaged plants, select the good ones and notify us at once.

NON-WARRANTY—We send plants that to the best of our belief will give entire satisfaction. The best plants sometimes fail through improper cultivation or weather conditions, therefore we give no warranty, expressed or implied and will not be responsible in any way for the crop.
